

Need to talk?

Call the KEY Consumer Organization Warmline!

Who is KEY Consumer Organization?

We are a mental health consumer-run organization that seeks to empower and encourage other mental health consumers in their recovery journey. We advocate on the state, local, and national levels for consumers like us. One of the ways we serve consumers is through our peer-run warmline.

What is a warmline?

A warmline is a **non-crisis** talk line where consumers can call up to once a day, for up to 15 minutes, to talk with a peer who is also in recovery with mental health challenges. Our warmline is a source of support and connection that can be helpful in addition to traditional mental health services. Our warmline operates 8am – 4:30pm, Monday – Friday.

If you want someone who cares to listen, empathize, and encourage you, give us a call!
We can talk about recovery, empowerment, or just day-to-day life!
