

## What is 2-1-1?

2-1-1 is a free and confidential service that helps **all** Hoosiers across Indiana find local resources they need. Managed by the Indiana 211 Partnership, Inc. (IN211) 2-1-1 is available 24/7/365 by simply dialing 1-866-211-9966 or online at [in211.communityos.org](http://in211.communityos.org).

## Are you someone seeking recovery from opioids?

Dial 1-866-211-9966. Indiana Family and Social Services Administration (FSSA) has partnered with IN211 and Open Beds to provide Hoosiers live treatment access across the state. By dialing 1-866-211-9966 you will be connected to a highly trained Community Navigator. This individual will act as a guide and advocate to locate available treatment in real time.

## What can be expected after being connected to treatment?

Anyone who dials 1-866-211-9966 to find available treatment options can also expect continued support and outreach from 2-1-1. Our Community Navigators are trained to locate wraparound services for all callers in need across the state. At any time before, during or after treatment, 2-1-1 Community Navigators will continue to serve by providing access to employment, housing, transportation and a variety of other services.

## Need a Lyft?

Dial 1-866-211-9966. To overcome barriers related to transportation, FSSA and IN211 are excited to announce our partnership with Lyft. Lyft is a public ridesharing platform that allows IN211 to request rides through a live-online network. IN211 can provide free, on-demand rides to individuals enrolled in substance use treatment and certified recovery programs across the State of Indiana. There a brief eligibility assessment required, simply dial 1-866-211-9966 and you are on your way. Currently, IN211 is unable to provide transportation to Medicaid insured patients.
