Who We Are:

Safe Haven Recovery Engagement Center is a Regional Recovery Hub dedicated to promoting and maintaining recovery from substance use in Orange, Dubois, Crawford, Perry, Washington, Martin, Pike, and Daviess counties.

What We Do:

- Clearinghouse of resources for those in recovery or ready to start recovery.
- Community education and awareness, stigma reduction regarding the disease of substance use.
- Collaborate and connect with other organizations in the community.
- Ability to increase the number of peer support meetings such as AA, NA, and Celebrate Recovery.
- Connection to social services such as employment, food, housing, medical care and transportation.
- Access to the life-saving overdose reversal agent, Narcan (free to any community member).
- Recovery Coach Program; free of charge; self referral or Department of Corrections referrals accepted

Why It Matters:

- 100,306 people lost their lives to overdose nationwide in 2021 (over 2,700 deaths in Indiana alone).
- 80% of employers are affected by substance use.
- Employers could save \$3,000 per employee by assisting in recovery rather than termination - in turn, decreasing turnover and increasing productivity.
- Since Safe Haven's opening on February 1, 2019, over 1,000 people have utilized its services.
- We know southern Indiana is a great place to work and live. Therefore, we should be investing in our community's future!

Where Your Money Goes:

- Sponsorships from this event go towards food provisions, transportation assistance, and video visit calls in the jails for participants in our Recovery Coach Program.
- Sponsorships from this event go towards our annual fund needed to keep our doors open which is \$6,000 per year.
